

VAGABOND PROMOTIONS

CAMBS 68437

MINUTES FOR THE CVG MEETING HELD AT ST PHILLIPS SCHOOL ON

WEDNESDAY 6 AUGUST 1986

CHAIRMAN: Dave Mantripp

MEMBERS PRESENT:

ANY OTHER BUSINESS

Barry asked why there didn't seem to be much support for the Coldham's Road site from the CVG. Dave Mantripp answered for the CVG that he thought the Coldham's Road site could be a possibility but not enough information had been available.

Both Eileen and Bill said that Vagabond had not been asked to supply the full information for the Open Meeting and that it had to come off our heads when asked there and then. So all the information was not brought to the meeting.

Barry said that he was not happy about the public response to the CVG survey or how it had been set out.

Linsey suggested that advertising to get public support should be used through gigs, posting and displays wherever possible.

Everyone supported this.

Dave Mantripp asked for Vagabond to resupport their aims in the CVG through agreement on site and what should go into it.

Click said that this could be amended through the public support.

Dave Mantripp said could Vagabond and the CVG now put a united front on in public and could this be confirmed, asked Vagabond for a business study and an outline for a multi-purpose live music venue, either at Coldham's Road or Cattle Market site ^{we} could be agreed to be built.

Disley asked Vagabond to put their ideas on paper and put it forward to the CVG.

Eileen agreed to do this and apologised for not being done sooner and that it was her fault it hadn't been.

Disley suggested we all started finding sponsors and seeing them and get pledges to get the venue off the ground.

Bill made comments on the sites and the difference between the Coldham's Road site and the Cattle Market was that one of them would have to be built and therefore we wouldn't have to wait so long. The advantage was the quarter of a million could be used straight away and therefore the support for this funding could not be withdrawn.

Pete needed a site ID for the Coldham's Road project.

Eileen confirmed it.

Disley asked if this was what everyone wants.

Bill would not accept anything that was not multi-purpose, built and would not accept it if it was profit-making and the profits were not being ploughed back into the community but rather going to individuals.

Dave gave explanations of sponsoring by advertising.

Bill thought that another feasibility study should be done on this.
