Mill Road History Society Street Directory Project

In 2026 the Mill Road History Society and the Museum of Cambridge started a project to scan the street directories for Cambridgeshire and make them freely available to all. This book is part of that project.

If you find any pages missing or unreadable then please email directories@millroadhistory.org.uk and we will correct the problem if we can.

Scanned with the CZUR ET24 Book Scanner.

THE DAIRY, MARKET STREET, CAMBRIDGE, The only Depôt in Cambridge for the CELEBRATED AYLESBURY DAIRY CO.'S BUTTER.

Fresh Supplies received Twice a Week.

KOUMISS is a form of Milk in which the Curd being *already* partially digested by its own natural process of fermentation, is rendered easy of assimilation by the most delicate stomach.

KOUMISS is invaluable for persons in delicate health, particularly for those of weak digestion, or with a tendency to consumption, and for children of delicate parentage. There are many cases on record of the complete cure by Koumiss of consumptive persons in the earlier stages of the disease, and of many in delicate health having their lives prolonged by its use.

KOUMISS has been awarded numerous Silver and other Medals by Medical and other Societies.

ARTIFICIAL HUMAN MILK is a preparation first devised by Prof. FRANKLAND, F.R.S., for his own children. The large proportion of Casein and the deficiency of milk sugar in ordinary cows' milk is rectified in Artificial Human Milk, the composition of which is absolutely identical with that of human milk. This preparation is of the greatest value to infants who cannot be nursed and to older children, and even adults who suffer from weak digestion. Artificial Human Milk received a Silver Medal.

PREFACE.

SEPTEMBER, 1887.

THE present Edition of the STREET AND GENERAL DIRECTORY OF CAMBRIDGE is the fifth which has been issued, and it is hoped that the experience gained in producing previous issues has been utilized to good purpose in compiling the present volume.

The first copy of the Street lists, herein contained, has been again made out by some of the most experienced letter-carriers on the Post Office Staff; this information has been supplemented by that obtained through the distribution and collection of forms requesting information from residents in the chief parts of the Borough, and the whole has been edited and corrected—in some instances by the clergy of a district, in others by residents having special local knowledge, and throughout by the Publisher, who has done his best to make the book as correct as possible.

The Official matter (both Town and University) has been readily supplied by the various local authorities, and to these—as to Subscribers and Advertisers—the Publisher tenders his sincere thanks.

MONTGOMERIE'S
PATENT EXTRACT OF MALT
DIGESTIVE BREAD, BISCUITS, & RUSKS
AWARDED GOLD MEDAL
INDUSTRIAL EXHIBITION, GLASGOW, 1886-7.
INTERNATIONAL EXHIBITION, EDINBURGH, 1886.

IN the Manufacture, the BREAD, BISCUITS, and RUSKS are put through a particular process before firing, and by the action of PATERSON'S EXTRACT OF MALT the Starch contained in the Flour is reduced to a minimum. The *diastase* of the Malt is made to act upon the Insoluble Starch, and to convert it into Soluble Dextrine, a change which is absolutely necessary as a part of the business of Digestion. Thus a Bread is supplied so prepared that a part of the business of Digestion is already done, and is therefore more nutritious than ordinary Bread, and is a valuable addition to the Food of Children and Invalids.

~~~~~  
The Patentee, JOHN MONTGOMERIE, Virginia Place, Patrick, Glasgow, has  
granted to

J. G. BRADFORD,  
FANCY BREAD AND BISCUIT BAKER, COOK AND CONFECTIONER,  
9, ROSE CRESCENT,  
CAMBRIDGE,

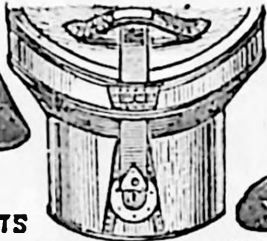

The Sole right to manufacture the Patent Extract of Malt Bread, Biscuits,
